The Lost Library of Thoth

Knowledge is the Greatest Treasure!

While some raiders of the ruins of ancient lands lust for gold and glory, the wise seek knowledge and the lore of the fallen empires. Somewhere below the desert sands lies a treasure trove of forgotten secrets and magical mysteries under the wings of the Scribe of the Heavens, Thoth. The cult of this archaic patron of knowledge is long dead, but fragments and clues lead you to a hidden shrine that once bore his name. Will you find legendary wisdom and mystic rewards untold, or will the tests of mind and body within reveal only secrets man was not meant to know?

The Lost Library of Thoth is a 7th-level adventure for the Pathfinder Roleplaying Game, complete with a set of brand-new spells including hieroglyphic barrier, moonlight, and Thoth's crescent! It can be played on its own or as a complement to the

second or third volume (#80-81) of the Egyptian Adventure Path from Paizo, Inc. The Legendary Games tradition is to combine rich story and background, innovative layout, beautiful aesthetics, and excellence in design that is second to none. This product is the latest in that tradition, and we hope you enjoy using it as much as we enjoyed making it.

6.0. Experience Counts

We feel these short adventures work best using the milestone method of rewarding experience and gaining levels. Instead of tracking each individual number, concentrate more on the story and just level up each character at the conclusion of each adventure. You are certainly welcome to reward experience points as you go, whatever you and your players will have more fun with.

Library of Thoth

Library of Thoth is a temple-robbing adventure for 7th to 8th level. This adventure works best if the party has a hard time finding information, particularly if that information is in the ancient world, as the Library of Thoth is a great place for them to find such information. If this adventure is being used as a campaign, the options for what information
